CAPABILITIES STATEMENT

Our highly experienced IT Consulting Team will provide you with a better, more cost-effective way to manage IT. We help companies transform their IT departments from cost centers to profit centers. We care about our environment. We look forward to implementing Sustainable and renewable energy through technology, which is why we launched ChargeIT our EV Charging division.

Our Services include EV Charging Stations and Support, Networks (WLAN, VLAN) Installation and configuration, Low Voltage Cabling, Fiber Optic Cabling/Splicing, IT Security, Dmarcs, POS Network Installation, IP Cameras, Audio and Sound, Video Conferencing, IDF Closet installations and WIFI Access Points (WAP). We provide a range of Low Voltage services for small to mid-range companies.

We offer IaaS and SaaS services within our Software department, with a specialization in Microsoft Office, ERP, CRM, Power Platform, Power BI, Teams, and Azure as well as Amazon Web Services (AWS). We are certified with the following agencies below:

PAST PERFORMANCES

- Cyber Security Assessment & Network solutions
